Public Notice Wetland Section

Re: SCDHEC-OCRM Critical Area Permit Applications

In order to facilitate efficient processing of critical area permit applications, beginning **September 22, 2008**, SCDHEC-OCRM will screen critical area applications more stringently for administrative completeness. An application will be deemed administratively incomplete unless all requisite items are submitted to the Department. The requisite items are listed in the Critical Area Regulations under R.30-2.B

Staff will determine the completeness of an application upon receipt and will notify the applicant (or agent of record) in writing if the application is **incomplete**. The notification will identify deficiencies on an accompanying checklist. Additionally, the fee check will be voided and returned with the notification. SCDHEC-OCRM will hold the incomplete submittal for **thirty days** from the date of the notification. If after thirty days, SCDHEC-OCRM has not received all of the requisite information, the application will be deemed withdrawn and the submittal will be destroyed. SCDHEC-OCRM will not keep copies.

SCDHEC-OCRM's technical review for each application will begin only when a complete application package has been submitted. The assigned project manager may require additional technical information prior to being able to place the project on SCDHEC-OCRM public notice. The required newspaper notice must meet the requirements of R.30-2.B(7). The project manager for the region will coordinate with the applicant/agent on when to timely publish the newspaper notice.

The critical area permit application is available at local SCDHEC-OCRM offices or on-line at http://www.scdhec.net/environment/OCRM/permit/docs/FORMS_Critical_Area/DHEC_3898.pdf

As of **September 22, 2008**, SCDHEC-OCRM will require an OCRM-approved critical area line to be shown on the submitted application drawings. An approved critical area line must be depicted on a survey performed by a professional surveyor and reviewed by the Department in order for the Department to validate the location of the boundaries of the coastal waters or tidelands critical area on the survey. Department Staff must approve the line prior to submittal of the permit application. Furthermore, the as-built survey should also reflect this line.

You may contact the Wetland Section Coordinator at 843-953-0233 if you have any questions about this notice.

SPECIAL NOTES

***DMPs** Dock Master Plans - OCRM is reviewing the listed DMPs for planning purposes only. Permitting decisions will occur when future dock applications are processed by OCRM for individual property owners. This document is used as a planning tool it is not subject to the appeal. OCRM welcomes comments from the public on these planning documents.

****WMPs** Wetland Master Plans – OCRM is reviewing the listed WMPs for planning purposes only. Permitting decisions will occur when future applications are processed by OCRM, which include impacts to freshwater wetlands. This document is used as a planning tool; it is not subject to appeal. OCRM welcomes comments from the public on these planning documents.

*****SWMPs** Stormwater Master Plans – OCRM is reviewing the listed SWMPs for planning purposes only. Permitting decisions will occur when future applications are processed by OCRM. OCRM welcomes comments from the public on these planning documents.

******PERs** Preliminary Engineering Reports – OCRM is reviewing the lists PERs for the purpose of commenting to other sections of DHEC concerning this document. OCRM will not be issuing a coastal zone consistency certification at this time but providing comments. If this proposal moves forward to the permitting process, OCRM would at that time do a full coastal zone consistency review.

PUBLIC NOTICE AMENDMENT REQUEST

The permittee for **P/N# OCRM-04-130-R, Raymond McGuirk**, has requested an amendment to the issued permit. The applicant proposes to modify the previously permitted dock by installing two 14' x 14', four-pile boatlifts on the upstream side and the downstream side of the previously permitted dock structure. The proposed amendment is for changes to a joint-use private recreational dock on and adjacent to Molasses Creek at Lots 14 and 15 in the River Reach Subdivision, Mount Pleasant, Charleston County, South Carolina. TMS# 514-05-00-107 and 514-05-00-106.

Written comments will be received on this amendment request until September 29, 2008. For further information please contact the project manager for this activity, Steven Brooks, 843-953-0235.

TO ALL INTERESTED PARTIES

Notification of Public Notice

Enclosed are public notices issued by the SCDHEC Office of Ocean and Coastal Resource Management. All interested parties are allowed 30 days for major developments and 15 days for minor developments after receipt of the public notices to file written comments to the OCRM pertaining to the applications. Only those comments received within this period must be reviewed by the OCRM in processing the permit application. Any person wishing notification of the initial OCRM decision on any specific public notice must make written request within the designated review period for that public notice.

**SCDHEC OFFICE OF OCEAN AND COASTAL RESOURCE MANAGEMENT
PERMIT APPLICATION PUBLIC NOTICE**

September 19, 2008

Permit Number: OCRM-08-220-T
Permit ID: 64522

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT: Beth Lucas
C/O E. M. Seabrook Jr., Inc.
PO Box 96
Mt. Pleasant, SC 29465

LOCATION: On and adjacent to the Wando River at Lot 72 Deep Creek Overlook off of Cape Island Dr, Paradise Island, Awendaw, Charleston County, South Carolina. TMS#: 617-14-00-052.

WORK: The work as proposed and shown on the attached drawings consists of constructing a dock. Specifically, the applicant seeks to build a 4' x 238' walkway, with handrails, leading to a 12' x 20' fixed pierhead. Ebbside of the pierhead, a gangway will access a 10' x 25' floating dock. Ebbside of the pierhead and landward of the floating dock an 8.5' x 25' floating jet dock is proposed. The work as described is for the applicant's private, recreational use.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

To assure review by OCRM, comments regarding this application must be received by OCRM on or before October 4, 2008. For further information please contact the project manager for this activity, James Trumbull at 843-953-0218.

PERMIT APPLICATION PUBLIC NOTICE**

September 19, 2008

Permit Number: OCRM-08-915-G
Permit ID: 64549

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT: Kenneth Davis
C/o Gasque & Associates, Inc.
28 Professional Village Circle
Lady's Island, SC 29907

LOCATION: On and adjacent to Battery Creek at 1073 Otter Circle, Battery Shores Subdivision, Beaufort, Beaufort County, South Carolina.
TMS#: R120-029-00C-0171-0000.

WORK: The work, as proposed and shown in the attached drawings, consists of constructing a private dock. Specifically, the structure will have a 4'x254' walkway with handrails leading to a 10'x12' covered fixed pierhead with water and electricity. On the ebb side of the pierhead a 3'x24' ramp will lead to a 10'x16' floating dock. The purpose of the dock is for the applicant's private, recreational use.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

To assure review by OCRM, comments regarding this application must be received by OCRM on or before October 4, 2008. For further information please contact the project manager for this activity, Geordie Madlinger at 843-846-9400.

**SCDHEC OFFICE OF OCEAN AND COASTAL RESOURCE MANAGEMENT
PERMIT APPLICATION PUBLIC NOTICE**

September 19, 2008

Permit Number: OCRM-08-917-G
Permit ID: 64572

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT: SC DOT
C/o Randell Enviromental, LLC
5472 Highway 174
Adams Run, SC 29426

LOCATION: On and adjacent to Broad River at Hwy 170 Broad River Bridge, Southwest Embankment, Okatie, Beaufort County, South Carolina.
TMS#: n/a.

WORK: The work, as proposed and shown on the attached plans, consists of constructing a rock revetment. The proposed revetment will be 160' long by 3' high at a 1:1 slope and placed along an eroding shoreline. The purpose of the revetment is for erosion control.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

To assure review by OCRM, comments regarding this application must be received by OCRM on or before October 4, 2008. For further information please contact the project manager for this activity, Geordie Madlinger at 843-846-9400.

TO ALL INTERESTED PARTIES

Notification of Public Notice

Enclosed are public notices issued by the SCDHEC Office of Ocean and Coastal Resource Management and the U.S. Army Corps of Engineers. All interested parties are allowed 30 days for major developments and 15 days for minor developments after receipt of the public notices to file written comments to the OCRM pertaining to the applications. Only those comments received within this period must be reviewed by the OCRM in processing the permit application. Any person wishing notification of the initial OCRM decision on any specific public notice must make written request within the designated review period for that public notice.

located southeast of Luvan Boulevard within the Debordieu Colony Community, east of U.S. Highway 17, Georgetown County, South Carolina (Latitude: 33.36806°N; -79.16256°W).

In order to give all interested parties an opportunity to express their views

NOTICE

is hereby given that written statements regarding the proposed work will be received by both of the above mentioned offices until

12 O'CLOCK NOON, MONDAY, 20 OCTOBER 2008

from those interested in the activity and whose interests may be affected by the proposed work.

The proposed work consists of maintenance dredging the Debordieu Canal. In detail, the work consists of dredging approximately 20,500 cubic yards of material from approximately 7.4 acres of the canal to a depth of 3.5' below MLW to restore adequate depths for navigation. All dredging will be confined to the dredge footprint depicted on drawings 4-14 of 16. No dredging will be performed in adjacent finger canals. Dredging will be performed by hydraulic dredge. All dredged material will be pumped to the existing upland disposal basin owned by Debordieu Colony Community Association depicted on drawings 14-16 of 16. Supernatant from the spoil material in the basin will decant through an existing ditch to Debordieu Creek. The purpose of this proposed project is to provide recreational boating access to navigable waters for the residents of the Deordieu Colony Community.

NOTE: Plans depicting the work described in this notice are available and will be provided, upon receipt of a written request, to anyone that is interested in obtaining a copy of the plans for the specific project. The request must identify the project of interest by public notice number and a self-addressed stamped envelope must also be provided for mailing the drawings to you. Your request for drawings should be addressed to the

The District Engineer has concluded that the discharges associated with this project, both direct and indirect, should be reviewed by the South Carolina Department of Health and Environmental Control in accordance with provisions of Section 401 of the Clean Water Act. As such, this notice constitutes a request, on behalf of the applicant, for certification that this project will comply with applicable effluent limitations and water quality standards. The work shown on this application must also be certified as consistent with applicable provisions the Coastal Zone Management Program (15 CFR 930). The District Engineer will not process this application to a conclusion until such certifications are received. The applicant is hereby advised that supplemental information may be required by the State to facilitate the review.

This notice initiates the Essential Fish Habitat (EFH) consultation requirements of the Magnuson-Stevens Fishery Conservation and Management Act. Implementation of the proposed project would impact (10.9) acres of estuarine substrates and emergent wetlands utilized by various life stages of species comprising the red drum, shrimp, and snapper-grouper management complexes. Our initial determination is that the proposed action would not have a substantial individual or cumulative adverse impact on EFH or fisheries managed by the South Atlantic Fishery Management Council and the National Marine Fisheries Service (NMFS). Our final determination relative to project impacts and the need for mitigation measures is subject to review by and coordination with the NMFS.

The District Engineer has consulted the most recently available information and has determined that the project will have no effect on any Federally endangered, threatened, or proposed species and will not result in the destruction or adverse modification of designated or proposed critical habitat. This public notice serves as a request to the U.S. Fish and Wildlife Service and the National Marine Fisheries Service for any additional information they may have on whether any listed or proposed endangered or threatened species or designated or proposed critical habitat may be present in the area which would be affected by the activity, pursuant to Section 7(c) of the Endangered Species Act of 1973 (as amended).

Pursuant to Section 106 of the National Historic Preservation Act (NHPA), this public notice also constitutes a request to Indian Tribes to notify the District Engineer of any historic properties of religious and cultural significance to them that may be affected by the proposed undertaking.

In accordance with the NHPA, the District Engineer has also consulted the latest published version of the National Register of Historic Places for the presence or absence of registered properties, or properties listed as being eligible for inclusion therein, and this worksite is not included as a registered property or property listed as being eligible for inclusion in the Register. To insure that other cultural resources that the District Engineer is not aware of are not overlooked, this public notice also serves as a request to the State Historic Preservation Office to provide any information it may have with regard to historic and cultural resources.

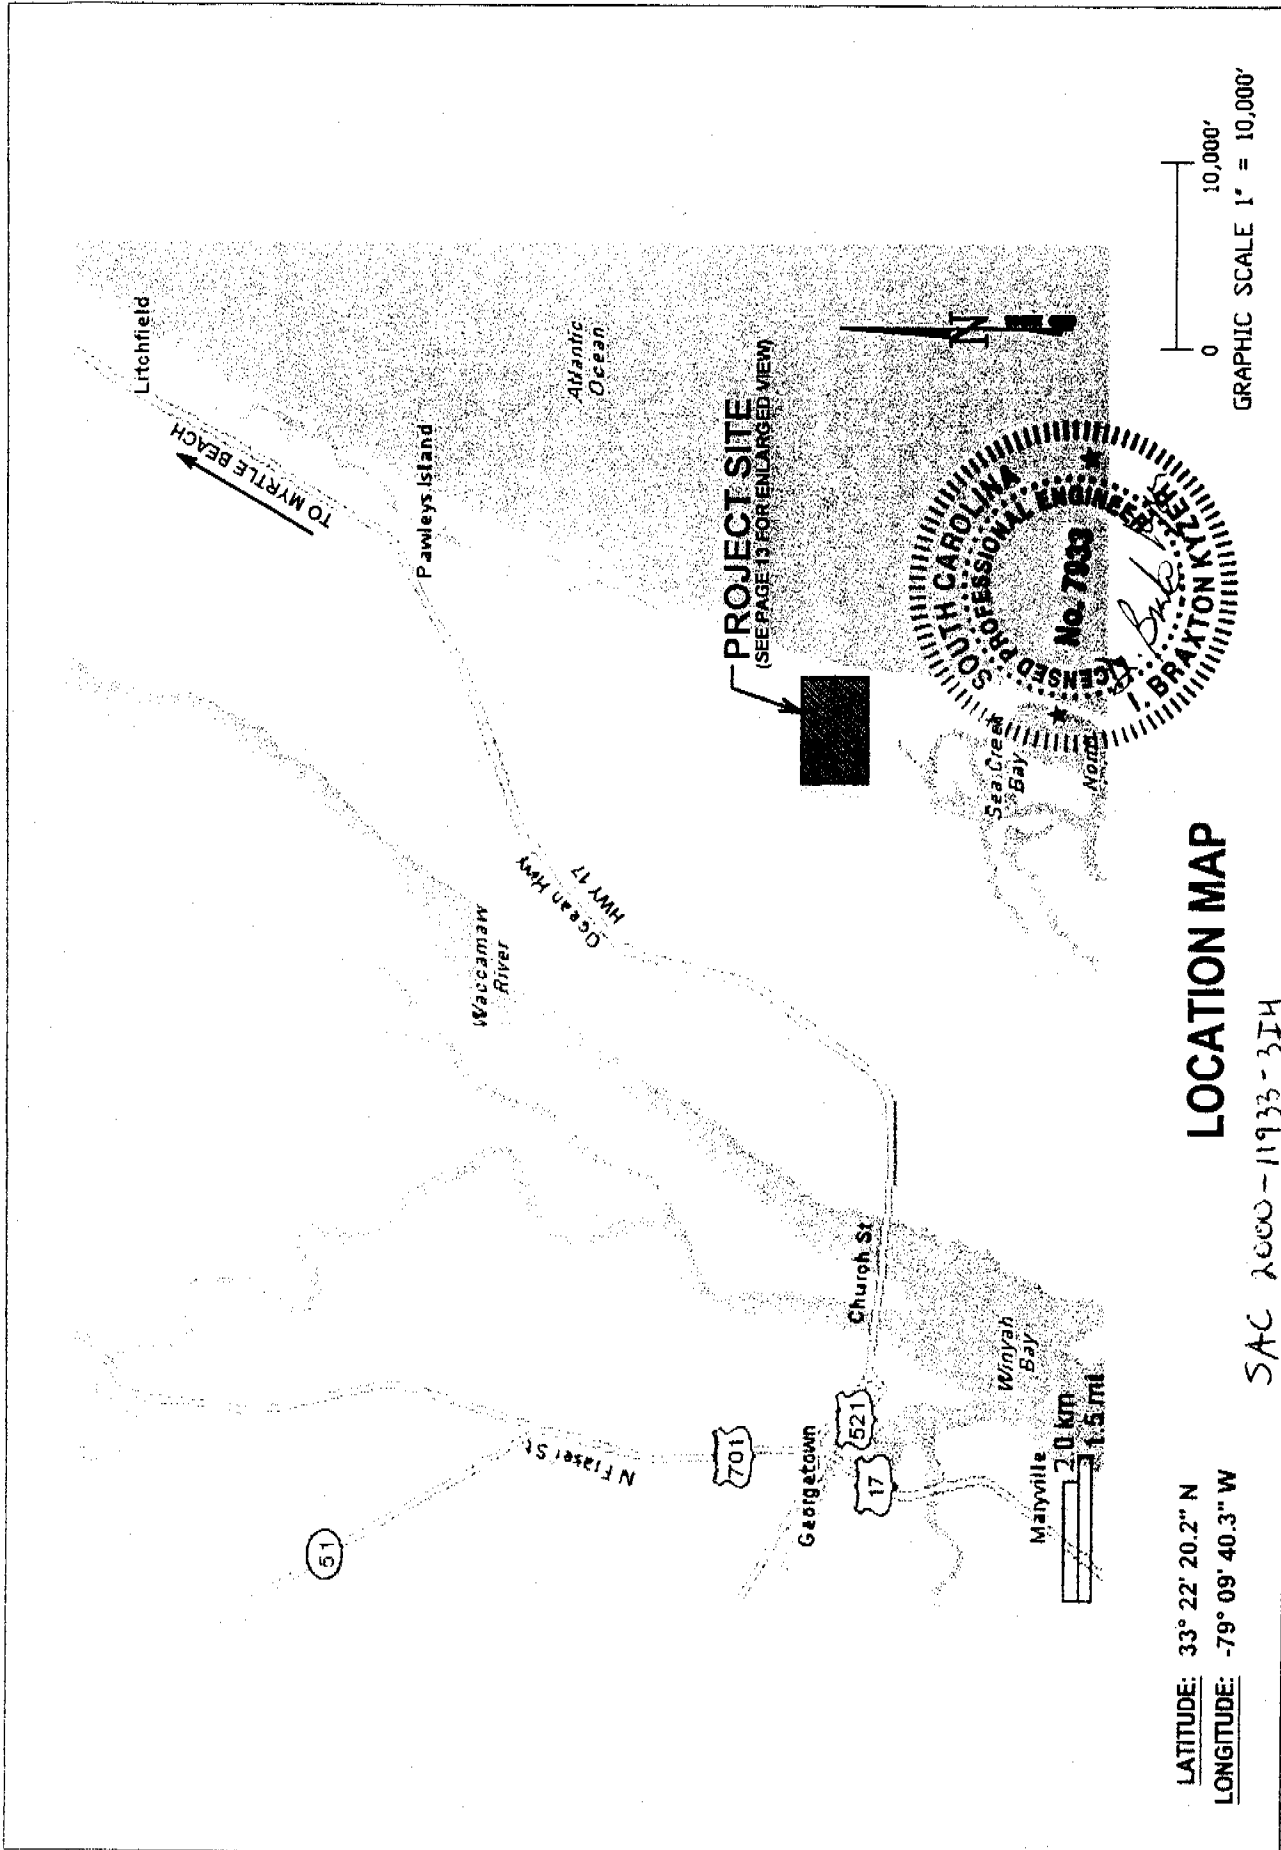

Any person may request, in writing, within the comment period specified in this notice, that a public hearing be held to consider this application. Requests for a public hearing shall state, with particularity, the reasons for holding a public hearing.

The decision whether to issue a permit will be based on an evaluation of the probable impact including cumulative impacts of the activity on the public interest and will include application of the guidelines promulgated by the Administrator, Environmental Protection Agency (EPA), under authority of Section 404(b) of the Clean Water Act and, as appropriate, the criteria established under authority of Section 102 of the Marine Protection, Research and Sanctuaries Act of 1972, as amended. That decision will reflect the national concern for both protection and utilization of important resources. The benefit which reasonably may be expected to accrue from the project must be balanced against its reasonably foreseeable detriments. All factors which may be relevant to the project will be considered including the cumulative effects thereof; among those are conservation, economics, aesthetics, general environmental concerns, wetlands, historic properties, fish and wildlife values, flood hazards, flood plain values, land use, navigation, shoreline erosion and accretion, recreation, water supply and conservation, water quality, energy needs, safety, food and fiber production and, in general, the needs and welfare of the people. A permit will be granted unless the District Engineer determines that it would be contrary to the public interest. In cases of conflicting property rights, the Corps of Engineers cannot undertake to adjudicate rival claims.

The Corps of Engineers is soliciting comments from the public; Federal, state, and local agencies and officials; Indian Tribes; and other interested parties in order to consider and evaluate the impacts of this activity. Any comments received will be considered by the Corps of Engineers to determine whether to issue, modify, condition or deny a permit for this project. To make this decision, comments are used to assess impacts on endangered species, historic properties, water quality, general environmental effects, and the other public interest factors listed above. Comments are used in the preparation of an Environmental Assessment and/or an Environmental Impact Statement pursuant to the National Environmental Policy Act. Comments are also used to determine the need for a public hearing and to determine the overall public interest of the activity.

If there are any questions concerning this public notice, please contact Rob Huff at 843-365-1726.
